BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Order Instituting Rulemaking to Promote)	
Consistency in Methodology and Input)	R.04-04-025
Assumptions in Commission Applications of)	(Filed April 22, 2004)
Short-Run and Long-Run Avoided Costs,)	
Including Pricing for Qualifying Facilities.)	

UPDATED EX ANTE ESTIMATES OF KW AND KWH SAVINGS OF SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) CUSTOMIZED ENERGY EFFICIENCY PROGRAMS

Decision 06-06-063, Ordering Paragraph 4 directed the utilities to update their ex ante estimates of kW and kWh savings for customized rebate programs, based on site specific installations for these programs.

Pursuant to Ordering Paragraph 4 of Decision 06-06-063 Southern California Edison (SCE) herein provides the requested information related to its customized energy efficiency programs. The customized programs offered in 2006 are as follows:

- Savings by Design (Attachment A)
- > Standard Performance Contract (Attachment B)
- ➤ Industrial Energy Efficiency (Attachment C)
- Agricultural Energy Efficiency (Attachment D)

Pursuant to Decision 06-06-063, Attachments A-D contain the site specific information collected through November in these programs.

In addition, SCE has revised its cost-effectiveness calculators ("E3 Calculators") previously submitted on September 8, 2006. These revisions reflect the discussions made during

the quality control process initiated by Ordering Paragraph 18 of Decision 06-06-063 and summarized in the report compiled by E3 and filed with the Commission today by the joint utilities under separate cover. In this report E3 discusses its quality control review of all of the utility energy efficiency E3 calculators. SCE makes the changes in its calculators which correct for the recommendations made by E3.

In addition to the changes made to the September 8, 2006 E3 calculators in accordance with the discussions summarized in the quality control process report completed in accordance with Decision 06-06-063, SCE completed its own quality assurance process and made further corrections to its E3 calculators. Similar to the discussions summarized in the report, SCE's changes to the calculators were made due to: input errors, the largest of which was discussed in the joint utility quality control process and affects the kW forecast; the application of DEER values, where previously not used; and the consistent use of savings estimates across programs. SCE will be posting these revised calculators on its website. In addition, SCE will provide a complete measure-by-measure display of the changes made to the cost-effectiveness inputs.

The resulting impact on SCE's forecast of energy savings and demand reductions are approximately -4.8% in energy savings and approximately -26% in demand reductions. These results are generally similar to the estimates of changes made by E3 in their review during the joint utility quality control process, but also include other changes made through SCE's own quality control process. As stated above and discussed in the joint utility quality control process, the kW impact was primarily attributed to a copy-paste input error in one of SCE's E3 calculators. Without this error, the demand reduction change would approximate that of the energy savings.

SCE's information will be available at the link below where it may be accessed.

http://www.sce.com/aboutsce/regulatory/eefilings

The inputs shown in the revised E3 calculators will be used in all future filings reporting results of the 2006 programs. SCE is also reviewing the documentation for measures which were not included in SCE's September 8 filing and as such are not included in today's update to that

filing, but which have been added to SCE's portfolio in 2006. SCE will provide the cost effectiveness information for these additional measures, as well as any additional corrections on the current measures, in a supplemental filing to be submitted upon completion of this review, but no later than December 31, 2006.

SCE appreciates the opportunity to provide this information to the Commission and all interested parties. SCE looks forward to continuing to work with the Commission in the successful provision of energy efficiency programs and impacts in California.

Respectfully submitted,

MICHAEL D. MONTOYA LARRY R. COPE

CERTIFICATE OF SERVICE

I hereby certify that, pursuant to the Commission's Rules of Practice and Procedure, I have this day served a true copy of UPDATED EX ANTE ESTIMATES OF KW AND KWH SAVINGS OF SOUTHERN CALIFORNIA EDISON COMPANY'S (U 338-E) CUSTOMIZED ENERGY EFFICIENCY PROGRAMS on all parties identified on the attached service list(s). Service was effected by one or more means indicated below:

Transmitting the copies via e-mail to all parties who have provided an e-mail address. First class mail will be used if electronic service cannot be effectuated.

Executed this 15th day of December, 2006, at Rosemead, California.

/s/ CHRISTINE SANCHEZ

Christine Sanchez Project Analyst SOUTHERN CALIFORNIA EDISON COMPANY
